

## QuickTie COVID-19 Update

The safety of our employees and customers is our absolute top priority. As such, QuickTie is adapting our business operations as necessary to keep everyone here healthy, and to do our part to help stem the outbreak of the virus in-line with our elected officials' directives.

Seeing as construction has been deemed an essential industry, we are still here to keep our customers going. And, we are committed to doing everything within our power to operate in a safe manner.

Accordingly, we are:

- Monitoring the local, national and global situations daily, and regularly implementing appropriate policies and guidelines.
- Working remotely when feasible, and mandating enhanced safety, cleaning, and staffing measures to ensure the safety of our distribution and manufacturing team members.
- Building inventory to quickly respond to increased customer demand, once we are on the "other side" of this thing and building resumes to prior levels.
- Encouraging virtual visits and phone conferences with our office personnel, and our sales and field reps.
- Continuing to provide phone and email support for customers and partners.

Our heart goes out to the victims of this devastating virus, and to their families as well. Please stay safe.
