

Sid's Grocery Rebuild, GTC Restoration

Quick Tie,

We can't begin to thank you enough for your generosity in helping rebuild Sid's Grocery on Green Turtle Cay (GTC) in the Abacos, Bahamas. Sid's, along with the rest of the island, was completely devastated by Hurricane Dorian. The entire roof, including the truss system, was blown away during the storm, resulting in significant water damage.

Thanks to your generosity in donating the clips and strapping material, our team of eleven was able to restore and re-open the grocery store in a week, working sun-up to sundown 30 NOV – 7 DEC to replace the roof, complete masonry and electrical repairs, repaint the store, and install new lighting and rigid insulation.

Scott and Martha Lowe, the owners of Sid's Grocery, have always been on the giving end in their community, constantly giving what they have to those in need on the island. Thanks to your generosity, they had the opportunity to be on the receiving end this time. They were in tears in response to what God had done through your business to bless them in a time when they had lost everything.

Sid's is now open for business, back to serving the community. There is still a tremendous amount of work to be done on GTC and there rest of the Abacos to recover from the hurricane, but Quick Tie's donation has made a gigantic impact to restoring commerce on the island. Thank you, thank you, thank you for loving the people of GTC so well.

In Christ,

David Pfeffer
